Re; Conditions around De Russey's
lane on night of murder, shots,
etc.

I interviewed Floyd S. Stein, Principal of
Middlesex County Vocational School No. 1, which
is located in Easton Avenue a short distance beyond
the end of the car line toward De Russey's Lane.

Mr. Stein informed me that on the night of
the murder he was at the school until 9:30 P.M.,
after which he went to his home. That he does not
remember hearing any shots, nor does he recall any
persons or automobiles which he might have passed
on his way home after leaving the school that night.

He said that he understood that some of the wit-
nesses claimed to have noticed the clock on the wall
in his office and to have fixed their recollections
of time by that fact. That there was a light in his
office and the clock would be visible from Easton
Avenue.

He has been questioned by a couple of Simpson's
men.

Respectfully yours,

DAVID THOMPSON
